Stakeholder engagement planning helps you identify and classify stakeholders in the FSM ecosystem based on their level of interest and influence. It also provides broad guidelines for engagement for each category of stakeholders. Stakeholders offer value to their local FSM ecosystem in the following ways:

- Play a vital role across the FSM value chain (construction of toilets/desludging services/treatment/sale or safe disposal of treated sanitation products) such as infrastructure development, service delivery, planning, financing, regulation, capacity building, monitoring, IEC/BCC.
- Be a beneficiary at any part of the value chain.
- Learn/support/oppose the overall implementation of the FSM project.

#### Basic Information about your city:

- City Name: Trichy
- State: Tamil Nadu
- Country: India
- Total Population: 100000

| Typology            | Stakeholder Types                          | Stakeholder Names |
|---------------------|--|-------------------|
| National Government | Ministry of public works                   | 213               |
|                     | Ministry of public housing                 | 231               |
|                     | National legislators                       | 123               |
|                     | Ministry of finance                        | 32                |

### Interest-Influence Mapping

The scoring scale for Interest and Influence of FSM stakeholders consists of 6 levels – Unknown, Little or None, Some, Moderate, High and Crucial.

Interest is characterized by the stakeholders' needs, constraints and problems being a priority in the FSM strategy. Influence is the power that stakeholders have on the project i.e. in terms of controlling the decision-making process and facilitating the implementation

You can view the relative positioning of the stakeholders in the Interest-Influence Matrix based on the rating given online in the following figure.

### Recommendations

The stakeholders are classified into four groups based on the positioning in the interestinfluence matrix. A set of guidelines for collaboration for each category of stakeholder are provided below.

#### High Interest + High Influence

These stakeholders should be closely involved throughout the preparation and implementation of the project to ensure their support for the project. It is recommended that these stakeholders are utilized for "Consultation, Collaboration & Delegation of responsibilities". In your local scenario, they are:

| Typology                           | Stakeholder Types                                   | Stakeholder Names |
|------------------------------------|---|-------------------|
| Donor Agencies                     | OXFAM   | 013               |
|                                    | WB  | 264               |
|                                    | BMGF  | 597               |
| National Government                | National legislators                                | 123               |
|                                    | Ministry of finance                                 | 32                |
| Local Government                   | Regional municipal authority                        | 195               |
|                                    | Local government/local<br>municipal authority       | 313               |
|                                    | Mayors  | 564               |
|                                    | Local legislators                                   | 645               |
| Key Representatives of the society | Academia  | 218               |
|                                    | Media   | 369               |
| City service providers             | Landlords   | 24                |
|                                    | Property developers                                 | 3325              |
|                                    | Large business owners &<br>industrialists (general) | 659               |
|                                    | Masons  | 751               |
|                                    | Consultants   | 953               |

| Potential end users -<br>farmers/industries | 953 |
|---|-----|
|---|-----|

#### Low Influence + Low Interest

These stakeholders may be "informed" about the project progress at key stages of the project lifecycle..

In your local scenario, they are:

| Туроюду                            | Stakeholder Types                     | Stakeholder Names |
|------------------------------------|---------------------------------------|-------------------|
| Key Representatives of the society | Better-off households                 | 126               |
|                                    | Poor households                       | 657               |
|                                    | Environmentalists                     | 657               |
